Message

I am happy to know that Arogyadham at Mahatma Gandhi Institute of Medical Sciences, Sevagram is organizing National Symposium on 'Holistic Living and Its Global Application' and CME on 'Therapeutic Life Style Changes for Management of Chronic Health Problems' during November 16-17, 2006. As Life Style Health Problems are increasing in epidemic proportions, it is appropriate and need of the day to understand the importance of 'Simple Living and High Thinking' preached and practiced by Mahatma Gandhi, the Father of the Nation. Globalization is a two-way weapon. We can be influenced by others or we can influence others by our ancient wisdom based culture considering whole world as one family.

I complement the organizers for taking this noble task and wish the Symposium all the Success

N. K. Ganguly
